HOTEL & RESTAURANT

High-quality baths for exclusive designer rooms – Villeroy & Boch brand products at the Teaching Hotel Château Bethlehem

The Teaching Hotel Château Bethlehem is located in one of the oldest castles in the Netherlands and opened in 2010. The exclusive hotel is located in a beautiful park and guests can spend the night, eat lunch and dinner or hold conferences and seminars. The various halls and outdoor areas are ideal for meetings, parties, receptions, cooking courses etc. and can hold groups ranging from four to 300 persons.

REFERENCE PROJECTS Teaching Hotel Château Bethlehem

At the same time, the hotel of the Maastricht Hotel School also has the L'Etoile restaurant and the Le Coin lounge bar providing trainees and students with a unique learning environment where they can gather practical experience and let their creativity unfold.

Twelve established and young Dutch designers furnished the Teaching Hotel Château Bethlehem. The results are 26 unconventional hotel rooms, including three suites with varying and surprising atmospheres – including minimalistic, playful, simple or luxurious – and all of them are completely unique.

Château Bethlehem used Villeroy & Boch brand products in the hotel baths. The baths used Villeroy & Boch brand toilets, sinks, showers, bath tubs and mirrors in all 26 rooms. The designers used items from both the Omnia professional series along with the modern best-selling Subway Collection, creating the ideal basis for unique bathroom design. The premium Memento Collection uses timeless design and minimalist forms and was also one of the designers' favourites. The shower trays and baths are from the Squaro Wellness Collection, which has a large selection of shower and bath solutions made with the exclusive Quaryl® material. The mixture of quartz sand and acrylic al-lows for one-of-a-kind design. Quaryl® baths also have a fine shine, while also being robust and easy to care for, making them well suited for usage in a hotel bathroom.

The Teaching Hotel Château Bethlehem also puts its faith in high-quality products from Villeroy & Boch for equipping the gastronomic areas: The collections of the Hotel & Restaurant Division come into their own here in a harmonious mix & match. Successful hotel collections such as Affinity, NewWave, Flow, Dune and Marchesi as well as the new Amarah and Artesano Professionale collections are used for serving guests. The special material quality makes the porcelain highly resistant to mechanical wear. The Hotel & Restaurant Division gives a 10-year guarantee on edge impact resistance for hotel crockery made of Premium Porcelain.
