

# LEGATO

## Unique, both night and day

Clear-cut and timelessly modern, Legato is a complete bathroom collection for a sophisticated style. The distinctive angled frame is the striking design element in this collection: the washbasin seems to float above the unit.

### Washbasins

- + The seemingly shallow washbasin (500-1300 mm) with its straight-lined basin seems to float in front of the wall
- + Highly practical: deep basin (110 mm) and generous shelf space
- + Can also be used without a vanity unit thanks to the fully-glazed underside

### Bath

- + The perfect match for the shallow washbasin: the new acrylic bath with a 15 mm rim; available in 4 sizes
- + Especially comfortable depth of 480 mm
- + Central outlet so two people can bathe together
- + Also available as a whirlpool system

### Toilets and bidets

- + Wall-mounted and floor-standing versions plus close-coupled WC-suite
- + All toilets: with innovative DirectFlush technology offering fast cleaning with only a 3/4.5 l flush
- + Flat toilet seats in two different designs - with SoftClosing and QuickRelease

### Bathroom furniture

- + Vanity unit with 1 or 2 drawers (division of 1/3 to 2/3) combines functionality and expressive design; 4 drawers available from 120 cm
- + Optional vanity unit with LED lighting: 3-step dimmable, freely-adjustable light colour from daylightwhite to warmwhite
- + Great choice of colours (12)
- + Versatile bathroom design thanks to cupboard units
