

ARCHITECTURA

Fits any plan. Architectura is the versatile system solution for the commercial sector. Developed with a view to the needs of architects and planners, Architectura unites minimalist design with practical innovations all the while setting standards in terms of hygiene, maintenance and efficiency. Whether round, oval or rectangular, the versatile washbasins are perfect for personalised bathroom design. The new wall-mounted DirectFlush toilet featuring a contemporary design and a concealed attachment creates a visual highlight.

Washbasins

- + Design based on geometric forms
- + Broad scope for individual style thanks to different installation options and sizes
- + The wall-mounted models can also be installed in a countertop
- + In Vogue: the latest facelift makes surface-mounted, built-in and undercounter washbasins more delicate
- + Installation-friendly and cost-efficient thanks to universal attachment
- + All models available with CeramicPlus

Toilets

- + Rimless DirectFlush technology for a new type of hygiene
- + Perfect-fitting solutions for rooms of all sizes - from standard solutions to compact toilets for guest bathrooms
- + Selected models available with AntiBac
- + The new wall-mounted toilet (round) with a concealed attachment and contemporary appeal

Urinals

- + Installation-friendly thanks to flexible, height-adjustable outlet
- + Maintenance-friendly and cost-efficient, as the ViChange siphon cartridge can be replaced without taking the urinal off the wall
- + Can be combined with the urinal control ProDetect 2
