

VICLEAN-U+

A new dimension of comfort

ViClean-U+ combines the ultimate in premium technology with a clear-cut design, which really comes into its own thanks to the new, concealed, integrated water and power connections.

Shower functions

- + Rearwash and Ladywash for personal cleansing
- + Oscillating comfort wash, with shower nozzle that moves backwards and forwards for optimum cleansing
- + A pulsating massage jet with varying intensity
- + Individually adjustable water temperature and pressure, shower nozzle with five settings

Comfort

- + Remote control to operate all functions
- + Temperature-regulated warm air ensures quick and pleasant drying
- + Integrated, full-surface seat heater
- + Automatic odour extraction
- + Automatic or remote-controlled opening/closing of seat and lid
- + Up to two user profiles can be stored

Hygiene

- + Patented, dirt-repellent material technology of the toilet seat and nozzle with antibacterial properties
- + Shower nozzle cleans automatically before and after every use

Sustainability

- + Active protection of drinking water: connection to the drinking water supply as per DIN EN 1717
- + Maximum saving of water and electricity thanks to intelligent energy-management system

ViClean-U+ perfectly complements the wall-mounted toilet in the Subway 2.0 collection.
