# *Discover* **INNOVATION**

Day after day, you can experience the results of our research and development: with great attention to detail, our innovative products and solutions make every minute in the bathroom pure pleasure.

Much of what goes without saying in the bathroom is the result of our search for better solutions. With fresh ideas, state-of-the-art technology and all of our expertise, for decades we have succeeded in designing an ever-more comfortable bathroom. It starts with materials that are pleasant to the touch such as Quaryl®, and our innovative designs are far from the end of the story. From the dirt-resistant finish to the water-saving toilet flush, at Villeroy & Boch you will find a host of game-changing products that leave you feeling safe and carefree.

Still, expectations of comfort and functionality, of design and hygiene, are on the rise. And technology continues to evolve as well. That is why we are already working to make the bathroom even more beautiful and better for you. Today, we are pleased to present one of our latest developments: TitanCeram. A high-quality material that permits impressively delicate, strong bathroom ceramics – and thus a completely new language of design. # *Enjoy* **QUALITY**

Since 1748, the name Villeroy & Boch has been a byword for the utmost in quality and dependability. With precise craftsmanship, state-of-the-art technology and strict quality standards, we create products that, even many years later, function just as well as they did on the first day.

When it comes to the quality of our products, perfection is always the goal. We want you to feel at home in your Villeroy & Boch bathroom for many years to come. That's why you will find that we offer a variety of reliable solutions that all share one thing in common: first-class quality and a particularly long service life. We ensure this with all our experience, but also with new ideas, with constant research and strict quality testing. As a result, our products must pass more than 25 checks, from tests of raw materials through to delivery.

An effort that's worth it: after all, bathrooms are replaced just once every 20 years or so. And an expectation you can experience in every detail. It is evident in the careful workmanship of our products – and in their perfect functionality. You can recognise it in scratchproof and dirt-repellent ceramics, in silently closing drawers, and in many other special features that make your stay in the bathroom an absolute delight. With every product we make, you can rest assured of owning a piece of lasting value.

ANTHEUS  
*Distinctly elegant*

**PERFECT INTERACTION**  
Antheus is a magnificently elegant bathroom collection – from the bathroom ceramics to the cabinets or mirrors, each element radiates stylish beauty.

**FINEST MATERIALS**  
Made from TitanCeram, the vanity washbasins are complemented by vanity units with real wood veneers in American Walnut or Black Ash.

Every line makes a statement here and each item has enduring value: the Antheus collection reflects the style classics of the Modern age. Premium materials and Art Deco-style geometric contours meet the puristic beauty of Bauhaus design. The clearly-defined edges of the washbasin, toilet and bath come together with a novel faceted effect to create an impression of lightness. Transforming premium ceramic, polished stainless steel, elegant marble and fine wood into a new modern classic – Antheus from Villeroy & Boch. Marvel at its magnificent elegance.

ARTIS  
*Sublimely fine forms*

#### DELICATE LIGHTNESS

Thanks to our novel TitanCeram material, it is now possible for the first time to manufacture products with extremely thin walls for incomparable design creations. With Artis, for example, we have created a fine form, just 8mm thick, that lends the washbasins an especially delicate appearance.

Colours and forms are an expression of personality and a popular way to bring more style to modern interior design. Artis, Villeroy & Boch's premium edition of surface-mounted washbasins, helps you express your personal style. Choose from 3 shades of white and 15 harmonious colours developed by designer Gesa Hansen and based on the seasonal colours in Paris. Combine your favourite colour with one of four purist, delicate shapes (round, oval, square and rectangular) and use Artis to add your very own personal touch to the bathroom.

The thin walls of the washbasins give the bathroom a timeless modern ambience. When placed on vanity units from the Legato collection or minimalist consoles, the full visual power of the surface-mounted washbasins is able to unfold.

**PURIST DESIGN**

The delicate, clear forms of this edition highlight the premium character. They stand for truly special bathrooms.

# WHIRLPOOL SYSTEMS

Each of the three whirlpool systems is available with different comfort features

Air jets in the base of the bath

## AIRPOOL

The air system for an invigorating massage. In the AirPool, air is injected into the bath through special jets and dispersed as fine bubbles. These air jets are located in the base and ensure a stimulating massage. The pipes to the base jets are blown dry after use.

Water jets in the sides of the bath

## HYDROPOOL

The water system for targeted body massage. Water is extracted and pumped back into the bath through water jets. The HydroPool massage jet stimulates the muscles and local metabolism. Residual water is drained away.

Air jets in the base and water jets in the sides of the bath

## COMBIPOOL

The combination of AirPool and HydroPool offers the best of both worlds: air jets in the base of the bath and water jets, depending on the model, in the back, at the sides and/or in the foot area. The jets can also be adjusted and used separately, for an all-round body massage that gently eases tensions and stimulates the circulation. The CombiPool is also used for hydrotherapy. Residual water is drained away and the base jets blown dry.

# TITANCERAM

*Ceramics from  
master craftsmen*

Firmer. Finer. And perfectly formed. Villeroy & Boch fuses natural raw materials such as feldspar, quartz, clay and titanium dioxide to create a material with the properties of top-class ceramics paired with great strength: TitanCeram. For impressively delicate forms with sharply defined edges that are very stable and robust at the same time. You'll find our new TitanCeram design highlights in the form of the washbasins from the premium collections Finion, Artis, Antheus and Memento 2.0.

# TITANGLAZE

*Matt. Beautiful. Stronger.*

*Our most  
robust  
glaze*

Our new glaze, TitanGlaze, does not have to shimmer to shine: its modern matt look is extraordinarily beautiful and extremely durable. Thanks to ultra-pure, crystalline aluminium oxide, TitanGlaze provides the ceramics with a high-quality finish that is particularly scratch- and impact-resistant. And retains the unique look of your bathroom - to keep it looking as flawless as it did on the first day, for many years to come.

#### LASTINGLY BEAUTIFUL

Stone White, a pure white matt colour, has a very high-quality appearance and lends the ceramics an elegant and individual charm. The extreme firmness of TitanGlaze ensures that the finish remains flawless, even after many years of use.

*The integrated freshness solution*

## VIFRESH

*Easy. Invisible. Fresh.*

Easy and aesthetic toilet hygiene with a fresh fragrance: ViFresh, the innovative compartment for rim blocks. It is integrated almost invisibly in the ceramic behind the toilet seat and can be filled with commercial rim blocks or toilet gels, avoiding the need for physical contact with unhygienic areas of the toilet. As the water flow is no longer hindered by holders or baskets, ViFresh is also ideal for rimless toilets.

## ANTIBAC

*Lasting protection against bacteria*

AntiBac is an innovative hygiene solution for the bathroom, which significantly reduces the risk of bacteria being transmitted. The new glaze contains silver ions and has been proven to reduce the growth of bacteria on ceramic surfaces and toilet seats by more than 99.9%. In combination with CeramicPlus and the rimless DirectFlush toilets, AntiBac ensures maximum cleanliness and hygiene – for the entire product lifetime!

## CERAMICPLUS

*Less cleaning – more time to enjoy life*

For almost 20 years, CeramicPlus, the dirt-repellent ceramic surface finish, has been helping millions of customers keep their bathrooms clean. The innovative finish causes water to form droplets on contact that simply flow off the surface, taking the dissolved dirt and limescale with them. And should any deposits remain, CeramicPlus is much easier to clean. Even dried limescale is easier to remove in an environmentally-friendly manner without the use of aggressive cleaning agents – a real advantage in the bathroom! Tested and confirmed by wfk - Institute for Applied Research.
