Experience Culture

Founded in 1748, in the heart of Europe, Villeroy & Boch is a globally respected brand with a rich tradition of actively shaping bathroom culture. Our products embody classical elegance and reflect the beauty of both nature and urban design. Whether in residences, hotels or commercial developments, with Villeroy & Boch you can create an experience of European style in any bathroom design.

1748

BIRTH OF A TRADITION
Jean-François Boch and his three sons begin manufacturing ceramic tableware and decorative art objects.

1836

COMPETITORS BECOME PARTNERS
Jean-François Boch merges with the successful stoneware manufacturer Nicolas Villeroy to form Villeroy & Boch. Their union produces one of the first global players of the 19th century.

1866

VILLEROY & BOCH CONQUERS THE WORLD
A mosaic factory begins operation; it will go on to meet the worldwide demand for Mettlach tiles.

1899

HYGIENE FOR ALL
The company begins mass production of sanitary ceramics, helping to democratize bathroom culture and hygiene across Europe.

1912

RMS TITANIC
The ship's massive size is eclipsed by the grandeur and elegance of its interior, which features floor tiles from Villeroy & Boch.

1975

DESIGN TO THE FOREFRONT
Luigi Colani's groundbreaking product concept for Villeroy & Boch transforms the bathroom into a regenerative living space.

2001

WALL-MOUNTED TOILETS & BIDETS

The New Must-have for Bathrooms

As today's bathrooms take on a more contemporary aesthetic, streamlined, wall-mounted toilets that save space are emerging as the perfect complement. Villeroy & Boch offers a broad variety of easy-to-install models that embody the best of European style and quality, making them a popular choice among upscale designer hotels and residential developments around the world.

1 SUBWAY – A Clear Choice The Subway wall-mounted toilets are a stylish complement to bathrooms with small footprints. Installation can be completed by one person with our SupraFix 2.0 mounting system.

2 MEMENTO – A Contemporary Design Statement The Memento wall-mounted toilet and bidet combine a simple rectilinear design with innovative technology. The toilet seat incorporates Soft-Closing, Quick-Release features and our exclusive CeramicPlus surface technology, all of which simplify cleaning.

3 STRADA – Classic Charm Early 20th century design meets contemporary convenience in the Strada wall-mounted toilet. Stepped-relief detailing lends the collection authentic charm.

4 ARCHITECTURA – Effortless Style Popular among architects, Architectura's contemporary design delivers form and function. Perfect for any bathroom, the simple shape of these wall-mounted toilets ensures comfort and effortless maintenance.

All Villeroy & Boch wall-mounted toilet models present a high-performance and water-efficient option for your projects. These toilets meet the criteria set forth by the EPA and proudly display the WaterSense logo.

SUPRAFIX

Simple Installation, Enhanced Aesthetics

The patented SupraFix mounting system simplifies the installation of wall-mounted toilets, saving time and effort. Moreover, installation can be completed by just one person. Because the system is concealed, there are no visible fasteners, thus enhancing the toilet’s overall aesthetics. Suprafix is available for La Belle, Memento and Subway wall-mounted models.

Precise Positioning

The use of a specially developed connector with the same length as the distance between the threaded rods of the wall carrier eliminates the need for further adjustment. The SupraFix 2.0 carrier supports the toilet while installation is completed.

Quick to Install

Once mounted on the SupraFix 2.0 carrier, the toilet is bolted in place through the seat attachment holes. When fully screwed into place, the toilet is locked into position against the wall. For convenience, the toilet seat is installed into the same assembly holes with special seat attachment hardware. It is then positioned on the bowl and screwed into place.

QUICK INSTALLATION

SPACE SAVING 1,000 LBS SUPPORTED

AJUSTABLE HEIGHT **WATERSAVING**

TANK INSIDE THE WALL

Completely Invisible

The absence of visible fasteners on the sides of the toilet improves the aesthetics of the toilet. The smooth, uninterrupted surfaces on the sides of the toilet are easier to clean.

Effortless Cleaning

Because wall-mounted toilets are installed off the floor, the area underneath is easier to access and clean, making them a more hygienic option. In addition, all Villeroy & Boch models are space-saving by design and WaterSense-certified.

CERAMIC PLUS

Save Time and Protect the Environment

CeramicPlus is a nano-based surface technology that helps repel dirt, lime-scale buildup and even oil and grease, keeping ceramics hygienic and looking new. The CeramicPlus surface causes water to bead up into droplets that run off, carrying dirt particles with them. CeramicPlus allows ceramics to be cleaned with less water and minimizes the need for harsh cleaning agents.

- 90% less cleaning time*
- 90% less cleaning agents*
- 90% less water consumption**

* When removing lime-scale compared with standard ceramics
** When contaminated with dirty water compared with standard ceramics

CeramicPlus is extremely durable, scratch-resistant and quick to clean.

SOFT-CLOSING

Just let go

Thanks to special dampers integrated into the hinges, toilet seats with Soft-Closing Technology close gently and silently. The technology enhances ease of use, prevents the seat from slamming shut, eliminates noise and avoids minor accidents.

- Dampers are integrated into seat hinges
- Gentle, silent closing

QUICK-RELEASE

Clean with Ease

Toilet seats with Quick-Release technology can be easily removed for convenient surface cleaning. Once cleaning is complete, the toilet seat can easily be reattached with a quick snap.

- Easy to remove and snap back into place
- Makes hard-to-reach areas easy to clean

1 LA BELLE – Classic Beauty A modern look, La Belle offers attitude with an elegant shape. Cutting edge features such as Soft-closing and Quick-release seat, CeramicPlus and WaterSense certification combine beautifully with classic style.

2 TWIST – Relaxed Style Simple lines and sustainable design, Twist offers a wide variety of options including both one and two-piece models that meet ADA and WaterSense requirements.

3 STRADA – Tradition Redefined WaterSense certified and outfitted with a hidden trapway, Strada brings together modern performance and a rich tradition in style.

4 ARCHITECTURA – Architectural by Design Architectura meets WaterSense requirements and offers clean-cut aesthetics and uncompromised quality.

REAR-OUTLET TOILETS

When remodeling, many types of construction obstacles are encountered. Plumbing stacks in older buildings often include waste stacks that open from the wall and are difficult to change. Villeroy & Boch's Rear-outlet Toilets offer the perfect design solution to this kind of plumbing situation.

Subway and La Belle collections include rear-outlet toilets suitable for floor or wall waste lines.

APPLICATIONS

Rear-outlet toilets are a decorative solution that addresses the variety of drain possibilities encountered in building remodels.

- Suitable for multiple outlet applications
- Smaller footprint for smaller bathrooms
- Can be installed using a horizontal drain for wall waste outlets
- Can be installed using Villeroy & Boch's Vario Drainbend for a floor waste outlet

Floor Waste Outlets

Install with Villeroy & Boch's Vario Drainbend for floor waste outlets.

Wall Waste Outlets

Install with a horizontal drain adapter for wall waste outlets.

1 AVEO – Exceptional Design Sensibility
Designed exclusively for Villeroy & Boch by famed architectural firm Conran & Partners in London, the IF award-winning Aveo immerses bathers in an experience that engages all the senses. Fluid lines and gentle curves add softness to this contemporary design, while its Quarryl® construction, a Villeroy & Boch innovation, ensures its durability.

2 SQUARO – Design-driven Style Squaro is a purely contemporary design statement, with precision formed rim, crisp corners and sleek styling. Bathers experience total relaxation in the deep well of the squaro tub, whether they're sitting or reclining. Quarryl® construction offers sturdiness and good heat retention.

3 LA BELLE – Sensuous Curves Red Dot design award winner La Belle is available in white and in stunning black. Made of long-lasting Quarryl®, the freestanding bathtub pairs elegant curves with sleek modern design for a truly dramatic bathroom setting.

4 OBERON – Classic Shape Oberon is a perfect addition for today's bathroom. The rectangular exterior and clean, straight lines integrate beautifully with the contoured oval bathing well. Made of Quarryl®, Oberon realizes the timeless simplicity of classic design.

Nature Perfected

The exclusive material innovation from Villeroy & Boch is setting new standards for aesthetic bath design. Quaryl® combines the best properties of natural quartz with the versatility of high-quality acrylic resin. A refinement of nature, Quaryl's sleek design is warm and smooth, but also solid and hard like crystal.

- Unique casting technology enables precision in design
- Colored-through material keeps the surface looking new
- Retains high-gloss surface for many years
- Smooth non-porous surface makes Quaryl® easy to clean
- High heat retention index
- Warm and pleasant to the touch

1 It starts with quartz crystal. 2 Ground to a fine powder. 3 Acrylic is added to create liquid quarryl. 4 After casting, a durable solid form is achieved, limited only by the designer's imagination.

MIRROR CABINETS

Sophisticated Design for a Fresh Start to Your Morning

Sleek refined design, energy efficiency and a multitude of options for personalization distinguish Villeroy & Boch's medicine cabinets and mirrors. Medicine cabinets feature Soft Closing technology, heat and energy efficient LED lighting and adjustable glass shelves. The mirror collections offer exquisite craftsmanship in every detail from beveled glass and cantilevered LEDs to decorative hardwood construction.
