

My View Now

The mirror cabinet offering the ultimate in storage space, light and design.

My View Now perfects all the features that are important for a mirror cabinet. The all-rounder has been improved and optimised across the board: height-adjustable aluminium shelves enable the storage space to be exploited to the full. The LED light strip running around the entire cabinet provides perfect lighting in every situation. And the integrated power sockets in a space-saving design ensure that toothbrushes and shavers are charged at all times. My View Now boasts an impressive array of intelligent and coordinated features outside and in, and accommodates the customer's every wish.

Ideal use of storage space

- + Height-adjustable, break-proof and easy-clean shelves.

Light for every situation

- + The light strip running around the entire mirror surface ensures ideal and virtually uniform illumination of the face
- + Infinitely variable light temperature and intensity for the appropriate light mood in every situation
- + Integrated washbasin lighting
- + Convenient light control from outside with the aid of the sensor switch
- + Replaceable LED strips
- + Austauschbare LED-Bänder

Power when and where it's needed

- + Two power sockets inside, connected independently of the bathroom lighting
- + The surface-mounted variant features an additional socket on the outside

Optional smart variant

- + Lighting control via smart home: The smart home solution is compatible with standard Zigbee Home Automation systems and enables digital control of the mirror cabinet via app and voice control.
