

# ANTIBAC

## Lasting protection against bacteria

New innovative glaze: in combination with CeramicPlus and the rimless DirectFlush WCs it ensures optimum hygiene for the entire product lifetime!

### Anti-bacterial ceramics

- + Reduces the growth of bacteria by more than 99.9 %
- + Long-lasting protection
- + Dermatologically-tested

### Effect\*

- + Anti-bacterial effect thanks to silver ions in the glaze – also protects areas that are difficult to access
- + Tested by: independent BOKEN Quality Evaluation Institute, the Federal Institute for Material Testing (BAM) in Berlin and IZORE Centrum Infectieziekten Friesland, NL
- + Anti-bacterial effect in accordance with JISZ 2801: 2010

### Range

- + Available for WC seats as well as selected WCs and washbasins

### Applications

- + Hospitals and healthcare facilities
- + Busy commercial areas: airports, amusement parks, etc.
- + Public and semi-public areas: public authorities and hotels
- + Private households

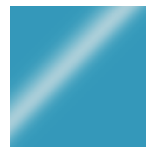

\* Tested and confirmed by independent institutes
