NEW KITCHEN PRODUCTS FOR 2020

CERAMIC SINKS AND TAP FITTINGS

SQUARE. PRACTICAL. VERSATILE.
This way or that, flush-fitted or surface-mounted – the square Siluet 50 S sink can be turned as required for flexible installation.

*Produced from 100%
natural raw materials*

SILUET 50 S

The beauty of fine forms

Sensuous, exquisite – a true design highlight in the kitchen. And now even more versatile, with the addition of a square model in 50 cm to the stylish Siluet family. Fresh options for designing your kitchen: the strainer bowl can be positioned on either side or at the rear – whatever fits best in your kitchen.

SOLID COLOURS

For solid ceramic sinks

Colours add a special spice to the kitchen. With the right touch, they lend the room an atmosphere in which everyone feels at home. As exemplified by the new colour Almond, which adds a warm earthy tone to the exclusive colour concept which designer Gesa Hansen has created for Villeroy & Boch kitchen sinks. Discover our sinks in this new on-trend colour exuding a special natural charm.

Almond

ALMOND BY GESA HANSEN
"Warm minimalism" is one of the hottest interior design trends of the moment. Minimalist and homely in one. The new colour Almond, featuring an ivory beige tone, adds a pleasantly earthy yet elegant touch to the kitchen.

Stain-proof

Scratch- and knife-resistant

Acid-resistant

THE NEW SILUET 60 S

With all the benefits of our ceramic sinks

Premium quality made to last. The robustness of the new Siluet 60 S and the 50 S sinks derives from our high-quality ceramic material TitanCeram, which is available in numerous glossy colours and in a modern matt look with our TitanGlaze finish. TitanGlaze provides the ceramics with an extremely scratch- and impact-resistant surface. Ideal for stylish highlights in the kitchen.

SPACIOUS SINK
The attractively designed single-bowl sink with separate strainer bowl foregoes a draining area in favour of plenty of space for large pots and the like.

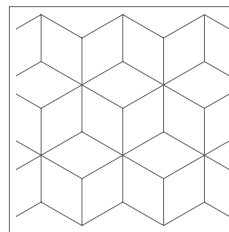

BUTLER SINK DÉCOR MOSAÏQUE

Timelessly modern for an individual touch

This butler sink adds an individual note with its generously-sized bowl and straight-lined front - and with its new Mosaïque décor it boldly takes centre stage in the modern kitchen. Inspired by Villeroy & Boch's famous ceramic Mettlach tiles, the décor embellishes the sink with a fine geometric pattern which makes its mark in unique fashion with a fascinating three-dimensional effect.

THE METTLACH TILES
In 1852 Villeroy & Boch designed the world's first ceramic floor tiles to combine wear-resistance with attractive design. Many of the original pieces can still be seen today - at locations steeped in history such as Cologne Cathedral or the Holland Tunnel under the Hudson River in New York.

*Tradition meets
modern design*

Anthracite*

STEEL EXPERT
535 mm

STEEL EXPERT COMPACT
400 mm

Matching accessories in the new colours Gold, Bronze and Anthracite are to be found in the new products price list.

STEEL EXPERT COMPACT

The tap fitting for home-cooking pros

Steel Expert - now even more versatile, more individual and handier: measuring only 400 mm in height, the new Steel Expert Compact fits into small kitchens, too - and even under wall cupboards. It can also be turned by 360° - allowing for flexible installation at the sink. Another new feature is the adjustable hand-held spray: in addition to the spray, the laminar jet now also allows fruit and vegetables to be washed without splashing. The magnetic holder for the spray head facilitates handling. As well as the stainless steel finish, both models are also available in the on-trend colour Anthracite.
