

ARCHITECTURA

Classic design with a contemporary twist Large sinks and functionally designed draining areas are defining features of the Architectura collection. For those who seek practical benefits and an attractive appearance in one.

Models and colours

- + Architectura comes in 3 different sizes, each with a draining area, for undersink cabinet widths of 60 cm, 50 cm and 45 cm
- + The collection is suitable for surface-mounted installation
- + As the sink is reversible, it can be installed with the basin on the left or right.
- + Choice of pop-up or hand-operated waste
- + All models are available in 13 ceramic colours

Architectura 80

- + Provides plenty of space for convenient working at the sink with two large, closable basins
- + Suitable for undersink cabinet width of 80 cm.

Architectura 45

- + Particularly wide basin makes easy work of washing up despite the small size of the sink
- + Suitable for undersink cabinet width of 45 cm.
