CeramicPlus

CeramicPlus is the innovative development for clean and particularly easy-care ceramic surfaces. The CeramicPlus surface refinement has a decisive advantage: fluids immediately form droplets on making contact and flow off into the drain, taking residues, such as limescale and dirt, with them. CeramicPlus is easier to clean. Dried limescale marks are removed in no time at all without using aggressive, abrasive, and polluting cleaners

Less Cleaning. More Time to Enjoy Life.

CeramicPlus is extremely durable, scratch-resistant, and quick to clean.

- 80% less cleaning time*
- 90% less cleaning agent*
- 90% less water consumption**

BATHROOM FURNITURE

Storage With Style

Furniture Made to Withstand the Warm & Humid Bathroom Environment

The furniture in your bathroom sets the stage for the ceramic elements—adding convenience to your everyday by providing storage and organization. It's a key design element in your overall bathroom design and should be selected with longevity in mind. Villeroy & Boch bathroom furniture is designed specifically to withstand the warm and humid bathroom environment. Designed from sustainable materials, Villeroy & Boch bathroom furniture will last for years with the correct care. Thermo-foil (featured on Subway and Venticello) is used to seal all furniture surfaces, wrapping over all sides and edges. Varnish (featured on La Belle) is applied to seal and protect the furniture from moisture. Laminates (featured on Levanto and the sides of the units featuring Thermo-foil) are applied with heat and pressure to protect the furniture against chemicals and light.

The Benefits of Engineered Wood

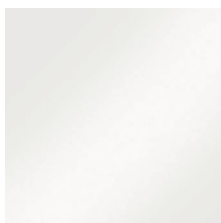

All Villeroy & Boch bathroom furniture products are made from engineered wood. Engineered wood is stronger and more durable than solid wood. Real wood veneers used in the furniture come close in color and structure to solid wood finishes, and are more sustainable as they are made from fewer trees.

*Villeroy & Boch offers optional support legs for all furniture.

- Chrome optic door pulls
- Deeper bottom drawer.
- Vanities feature a 1/3 : 2/3 division —with the bottom drawers deep enough to hold shampoo bottles upright
